

K-Love is a support within the Denver community in that it provides Christian/family music and broadcasting on a radio filled with less than that. If K-Love is lost to an LPFM broadcaster it will remove a selection on the radio for family listening that is safe. Our television and radio is consumed with information that needs constant monitoring by parents and in a world where that is near impossible we need available choices for our children and ourselves. K-LOVE provides a choice without which our only choice is silence which doesn't seem fair.
